 Stars  
of Orion

[orionjobs.com](http://orionjobs.com)

## Our Locations

**The constellation of Orion has been described as an important aid for farmers and sailors in ancient times, its rising and falling signalling when to plant certain crops or bring ships safely to port. In our 2024 calendar, we guide you through the months with our own stars at the forefront.**

The places we feature are locations that have kept us busy of late. In some cases, a single project might span several locations – as is the case with the ground-breaking infrastructure projects we’ve been working on. For these, we provide a truly international service, as our people follow the construction and installation process around the globe.

To ensure we continue providing the people we place on jobs with everything they need, we ask for testimonials through Feefo, an independent review site. As you move through the months, you’ll spot a five-star candidate review on each page. These are **our** guiding constellations: snippets of satisfaction that signal that we’re doing things right. And any reviews that are less than five stars help us to be better the next time.

Of course, all of our placements are made possible by the work of our star-filled team. Our employees may be scattered across the globe, but much like a constellation, they are linked by invisible lines of teamwork, integrity and commitment.

**We wish you all a stellar 2024.**

**People are our business worldwide**
